Summary

I'm a tech enthusiast currently pursuing a Bachelor of Science in Software Development at KCA University. I have little experience in full-stack web development using Flask and React, I'm currently learning data science, machine learning, and artificial intelligence. C, Python, and Java are a few programming languages in which I am well-versed.

Skill Highlights

- Programmer
- Information System Analyst
- Computer Network Architecture
- Full-stack Web Development
- Computer System Designer
- Data structures and algorithm
- Problem solving
- Git
- Shell
